Provider Description

Information provided by the provider describing their agency:

Horizons Programs Inc. is comprised of:

Supported Employment and Options (SEO)

Supported Employment helps people with developmental disabilities find and maintain community based jobs by designing or locating jobs based on each person’s strengths, preferences and interests. Supported Employment is about the dignity, responsibility and joy of holding a job and earning a paycheck. We think creatively, working together with individuals, their families, and local communities to develop opportunities for people to succeed and realize their dreams.

Our Options program provides DSO Services to individuals who for whatever reason employment is not a primary focus. We create unique opportunities that tap into the interests and passions that each person has. We specialize in a community integrated approach through volunteerism and other community Partnerships. With access to a registered nurse team we are able to provide meaningful supports to individuals with unique medical needs.

Educational Support Services (ESS)

Horizons Educational Support Services provides transition education supports to students from area public schools with opportunities to maximize their transition plan to adult life and realize their dreams for the future. Students who qualify for DDS Day Services have a smooth transition from Educational support to Adult Services. We have developed a person centered system of positive behavior support to assist students both during the school years as they transition to adult life after high school.

Supported Living Services

Horizons are as unique and multi-faceted as the individuals we serve. Adults live in homes or apartments with a wide variety of custom-tailored supports, from cooking and shopping to participating in Special Olympics and going to the movies/dances to visiting museums and amusement parks. Supports are person-centered and oriented around a daily routine which includes work and the pursuit of personal interests and hobbies. SL also aims at supporting individuals build meaningful relationships with family, friends, neighbors and members of the community.
